- Let any scabbing or dry skin naturally exfoliate off.
- Picking and rubbing the area can cause scarring and loss of strokes.
- Brows will appear MUCH darker the day after the appointment. This will continue for 3 days.
- New skin forming causes the area to appear lighter/faded days 7-10. Color will start to come back around week 3.
- Absolutely no brow makeup, skincare products, or sunscreen on treated area for two weeks.
- Avoid Retin A, and Retinoids.
- Absolutely no excessive sweating (from work/exercise) for 7-10 days while healing.
- No waxing, threading, facials, chemical treatments, Botox, and/or microdermabrasion for 4 weeks after.
- Avoid sleeping on your face for the first 2 weeks to protect area.

Excessive fading may occur in sensitive/oily/lasered skin types and for reasons we cannot foresee. Multiple sessions may be necessary to determine causes of fading and to find the best approach for your skin.
